For the five or six who may care...

Did export the whole Saga into one larger (54 mb) pdf file with all the content, evidence, happenings over the last years. All in one. It is all in there, neat...In an attempt to keep it safe, safe it for the future etc.It is all just by a strange coincidences that the whole thing came out in the first place.

So yes , think we have done enough, we will keep this site open for a while. But probably not forever, we will see how it goes.

As mentioned it is now on the **Internet Archive**

The internet archive is not perfect, as it is very slow and every time you upload it needs to verify it etc etc, takes ages. And they may pull it maybe if they receive a complaint or "copyright" hoopla from....well...we know whom...the Texan Cult. So yes from now on, it probably may get quiet as there is not that much to say , all that needed to be said and done is behind us now.

In case it gets pulled and that would not be the first time, at least we have some documentation saved. As too much has happened in the dark in regard to the cult of CTTM. It is all in darkness. We cannot change the past but we can do an effort to preserve the future. For whatever it is worth. Unless more and new indicators come up, you never know, highly unlikely, but if so, we will let you know , so do not expect too much changes from now on.

Just saying..

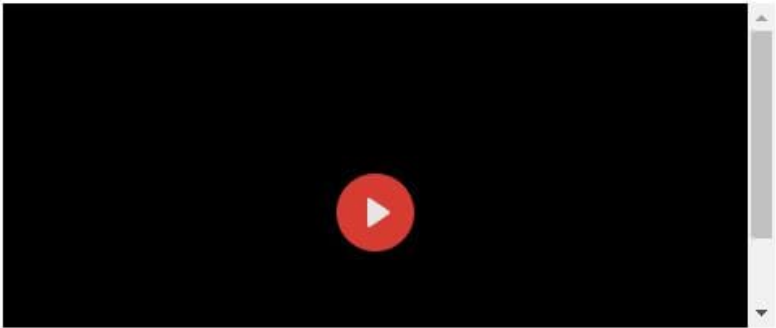

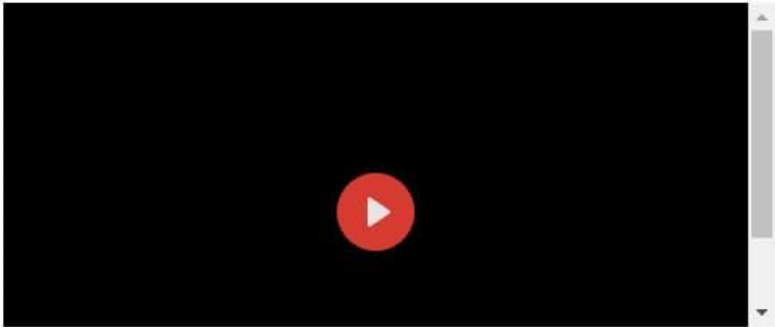

cheers and may your god or godsgo with you..

The email concludes with 'Best Regards, Odysee' and a promotional message: 'Do you love talking to us via email? Then join us on Discord Chat to become a member of our community, interact directly with the Odysee team, and help us build a revolutionary digital marketplace! When the VAXXED start dying, WAS THE PLAN to say:

"Oh yes, COVID-19 is an advanced military weapon designed to kill the host years after infection. Your government had to treat this bioweapon as a national threat." ? Plots within plots.
