akin to the vast population movements which occurred at the beginning of the industrial revolution. After the unification of Europe was to follow the unification of the Americas with the resulting clash of cultures and the initial mayhem produced. People slept while the Free Trade Agreement and the subsequent NAFTA (North American Free Trade Agreement) were discussed with deliberate minimum coverage by the CFR (Council on Foreign Relations) controlled media. For those who wish to check, the publicly available censored version will see it has to do, in part, with THE FREE FLOW OF GOODS AND LABOR across traditional national boundaries. People are being encouraged to blame the effect (mass influx from south) and to completely forget the cause. Out of the mayhem will materialize, as if by magic, a new Constitution of the Americas. This will be presented as the only reasonable and logical direction to go if we are all to live in peace and security. Coupled with this will come the announcement that every citizen of the Americas must accept an INTERNATIONAL Identity Card under the guise that authorities will be able to track criminal elements moving northwards. The problem has been caused, the reaction is underway, and the solution will be presented. This is the standard Hegelian technique which never fails. Read "MILLENNIUM - Winners and Losers in the Coming World Order" by Jacques Attali who helped spearhead the European Union.

Researcher of esoteric history, **Alan Watt**, will discuss how ultra high level sects have controlled the course of history to a pre-determined goal and are still in power.

Sorry to toot my own horn, but since I'm a genuine little non-managed, non-affiliated, non-produced, non-secret-society-backed (you get the picture) tootor tutor I have no one else to do it. This is a non-profitmaking lossmaking unadventure so I'll toot away while you listen to your free downloads, Part 1 and 2 from Coast to Coast AM with George Noory, originally airing on April 10th, 2006. Thanks to George for extending his hand down and pulling up a genuine little human to say his piece/peace.

The effects of cadmium spraying over a city [Norwich, England] in the 1960s are to be investigated after claims that it was linked with cancer of the oesophagus. YOU - Yes, YOU, Listen Up!

Because Alan is perfectly genuine he has no agent or manager to arrange radio interviews. He belongs to no group, sect, or political party. If you would like to hear him more often, you will have to request the major talk show hosts to have him back. A mind with knowledge is a terrible thing to waste.

For those who wish information on Reptilian people, rather than waste my time, please check the entertainment sections of major bookstores or visit the local zoo and look up these particular categories: Crocodilia, Squamata, Rhynchocephalia, and Testudines. If the department head is in good form he may answer some questions, depending on how hot or cold-blooded he feels at the time, but generally he's a good egg. Don't show off your knowledge on the subject, because he may become green with envy and give you a watered down story. I guess we're on the road to progress. Mums and dads will feel sooooo much safer now knowing their children who are paddling in the water are being protected by the world's finest. We Canadians thought they were joking when they said no drinking and boating. Seriously though, if the public cannot see the ominous path we are on then history is truly doomed to repeat itself.

Translation: The monsters who are manipulating us now wish to hire an in-bred monster with the qualifications necessary to plan a race of stronger, more long lived Frankensteins in order to serve the elite better. This upcoming race of genetically manipulated servants will be called the Borg, very efficient when they act together, but that annoying trait of individuality will be obliterated. Applicants must be fully fledged eccentric psychopaths with no ethics whatsoever with regards to sanctity of life, and abhor the phrase "Live and let live."

P.S. A background in the genetic modification of killer viruses would be an asset. Must be able to say the most horrendous things in a disguised user-friendly fashion.

You can see how the deadly Spanish Flu virus was resurrected in the 1990's by scientists who dug up corpses buried in 1918 in permafrost in northern Canada. The coming avian flu is no doubt a weaponized form of this virus to be used in the depopulation program widely publicized by the Royal Institute of International

Affairs, the Bertrand Russell Society, the Fabian Society, and the United Nations Department of Population Control. The only antidote is prevention, so everyone email theses societies and the Rockefeller Foundation and tell them you know what they're up to. For further info, see my blurbs on this subject on the Sweet Liberty Website.

Alan reserves the right to re-broadcast interviews.

In all ages, in all lands, there have been those who seek truth. This seeking is an individual's search for something more than self, and much more than the confines of this worldly system. It is the seeker who understands there is more than what meets the eye.
